RE: Please Grant FCC Approval of the InnoCaption App  
Created by Miracom for Smartphone Devices

Dear Secretary Dortch,

I strongly support the InnoCaption product for a Smartphone and urge the FCC to grant speedy approval of this product for the deaf and hard of hearing community. A product like this is in great demand for segment of the Deaf and Hard of hearing community who choose talk and read with their telecommunications.

Deaf and hard of hearing individuals should be able to make or receive calls to and from friends, family, neighbors or business associates at any time or place we want without any forethought, needless advance notice or complicating process for either party.

I am not connected with Miracom or the InnoCaption product in any way. This InnoCaption product is an app many of Smartphone users have been looking which provides the freedom, security and mobility needed and many want, but need the FCC to approve it quickly so they can begin using it now.

I urge the Commission to grant quick approval of this product in the best interest of ensuring fair competition and practices.

Thank you for taking serious note of this request.

Sincerely,

Sheri Farinha
